

## KNIGHTS WILL CONFER DEGREE

Make Plans For Giving Fourth Degree On Some Holiday This Year.

Knights of Columbus of El Paso are making preparations for an amplification of the third degree immediately after Easter. Plans for this degree will be made at the regular meeting to be held Thursday night, March 12.

**Held Fourth Also.**  
Fourth degree members will also hold a meeting on March 13 following the regular session and will discuss means of providing for the giving of this degree on some patriotic holiday during the present year.

**DOG RIDGE IS LATEST TO BE STRUCK BY OIL FEVER**  
Dog Ridge, a place a few miles west of El Paso, is having an epidemic of oil fever which has been on for the past few weeks. It is said that every available acre has been leased and some leases have changed hands at a profit. Oil men have been drilling into that section leaving land. Oil has been found in water wells for a generation and now with the fever spreading over Texas, Dog Ridge will make some real tests.

**WILL CONSTRUCT REFINERY FOR BEAVER OIL AT CISCO**  
Cisco, Tex., is to have a 2000 barrel oil refinery, to be built by the Beaver Valley Oil and Refining company. The plans are completed and it is reported that the contract is to be let at once. It is said that negotiations are under way between this company and the Liberty Refining company to build a joint pipe line from the Ranger field and Cisco.

Look at these two plates and see your own reasoning. The roofless has suction on both sides (2), soft rubber seat to sore gums. Designed to be put in immediately after extraction. It does not touch the hard bone in the roof of the mouth, therefore, it settles with the gums and makes its own bed. No full roof plate can compare with the fit of this plate, as it settles into its bed, lighter, more tongue room, clearer speech.

Dr. Williams has been making this plate for ten years, and is thoroughly familiar with its construction. Made only by us in El Paso.

## Most Northern Well In Texas Is Brought In

Biggest Lease In Texas Oil History Is Made; Harris Well A Wonder.

Dallas, Tex., March 8.—The most northern well of Texas came in Wednesday with 400 barrels. The well is not finished. Only the first shot was given. The well is in the Calido field, 12 miles northeast of Breckenridge. Now oil men are asking "To where does the pool extend?"

The biggest deal yet reached in leases was made Wednesday at Wichita Falls where the Home Oil and Refining company, of Ft. Worth, leased 100,000 acres in Wichita county. The company hopes to open a new pool in this territory. It is the Wagner ranch.

A new field has been opened at Charlie, Tex., in Clay county. Four derricks are drilling and seven are getting ready. Excellent showings have occurred.  
A new pool was opened at Iowa Park Wednesday, when the test on the Wacker land came in. The well is making only 50 barrels but it opens a new field.  
The Magnolia Harris well is now making 100 barrels a day. Ten days ago it came in with 50 barrels, then it increased daily to its present flow. It is termed the wonder well and is situated in the vicinity of the Lima Terrell in the Olden field.

**FORMER SLEEPY VILLAGE IS NOW A BOOMING OIL CENTER**

Deshamora, Tex., a sleepy village with three stores, blacksmith shop, church and postoffice and school house during the past 50 years, is now a booming little town. Due to the Hor creek oil boom. The village is located 25 miles west of Stephenville on the Atchafalaya and Ft. Griffin trail, and was formerly known as "Hogtown" by the natives. The old landmark is said to have been torn away and new artistic buildings have recently gone up and a large hotel is now being built.

**TEX RICKARD WILL ENTER OIL GAME; OBTAINS LEASE**

Tex Rickard, boxing promoter, is in the oil game in a practical way and now has construction work commenced on a rig on property which he bought in the Ranger, Tex., field. He is located between the big producers known as the Norwood and Harris wells. He has options on several leases and is said to have had many of his friends to join him.

**BEGIN TO ERUPT DERRICK.**  
D. C. Nelson and associates, who recently acquired oil rights in the Wichita county roads, are to begin building the derrick for the first well this week. This well site is located west of Bushburnett.

WHY not get into the good habit of growing many of your own vegetables, asks today's bulletin from the national war garden committee, Washington. It is only a little trouble to grow many of the different vegetable seeds and you will have the very best kind if you select the best parent plants to set out for this purpose.

**WILL SHOWS GAS.**  
The Ranger-Cisco oil company well, about five miles southeast of Ranger, Texas, which is reported as showing about 1,000 cubic feet of gas a day is termed foggy gas. The well is to be drilled deeper.

**ASKS BIDS ON ROADS.**  
Reports from Dallas are to the effect that bids are asked for on building the grade of the oil field railroad between Eastland and Mangum, Texas. It is said construction is to begin within 30 to 40 days.

**LAS CRUCES HAS ATTACK**  
OF OIL FEVER DRILLING.  
Las Cruces, N. M., is getting the oil fever bad. Report states drilling is to commence on the Cox well east of the Organ mountains within 30 days. Another company has been organized there to further oil development. The trustees of this concern are W. O. Lawless, P. M. Hayner and R. P. Porter.

**JESS WILLARD MAY ENTER OIL FIELD AT SAN ANGELO**  
A San Angelo, Tex., dispatch states that it may have Jess Willard, who licked the negro champion prize fighter, Jack Johnson, in the oil game now developing in that section and in the Pecos river country. This land is mentioned gives as authority for Willard's possible oil venture E. A. Kelly, of Wichita, Kans.

**HARRIS WALTHALL OBTAINS A LEASE IN JACK COUNTY**  
Harris Walthall, El Paso attorney, has returned from a three weeks' trip in Ranger, Bushburnett and El Paso oil fields and in Jack county, Tex., where he has over New York and Pennsylvania people about 2000 acres of land near Jack county seat of Jack county. This land is midway between the Bushburnett field on the northwest and Ranger on the south. A deep test well is being dug on a portion of this land.  
Mr. Walthall states that in this portion of Jack county oil was found some 25 years ago in shallow wells, most all being less than 200 feet deep. There are 65 of these wells. Merchants have been drilling this oil for years. Some eight or ten deep test wells are being put down in Jack county. One of them is by Dr. H. D. McGregor and associates of El Paso.

## The Young Lady Across The Way

Winters Oil Company Contracts For Three Wells At Winters, Texas.

The Winters Oil and Gas company has contracted to have three test wells drilled around Winters, Texas. Materials for derrick and machinery have arrived to drill one well three and a half miles southeast of Winters. The pit has been dug and operations are expected to be commenced on a second well seven miles northeast of the town. On a third location, north of Winters, the contract has been let for a derrick to be ready in 10 days and drilling to commence in 120 days. The company has a block of land six miles west of Winters and another 15 miles east.

**Land Goes Up.**  
It is reported that wells already drilled and geological reports have stimulated prices in leasing and lease prices range from \$1 to \$50 per acre.

**GIVENS WILL DRILL FOR OIL IN WESTERN TEXAS**  
John P. Givens, New York, president of the Western Union Oil company, arrived in El Paso, Tex., last night and will be here for several days. He also with the expressed wish that he wanted to drill for oil on the premises of his father who was a pioneer Baptist preacher there in 1830 days. Mr. Givens's company, an English concern, is now producing 37,000 barrels of oil with holdings in both the U. S. and Mexico.

He stated that he wanted for purely sentimental reasons to drill a well in the old Runnels county homestead of his father, the Rev. W. Givens, and also with the expressed wish that he wanted to drill for oil on the premises of his father who was a pioneer Baptist preacher there in 1830 days. Mr. Givens's company, an English concern, is now producing 37,000 barrels of oil with holdings in both the U. S. and Mexico.
